Attention: Mr. Jerry Sexton, Supervisor

**Re: OXY-operated Owen #8 Well, Tubb Oil and
Gas Pool**

Dear Jerry:

OXY USA Inc. respectfully requests approval to make up the accumulated overproduction on the referenced well by producing at half-allowable. Completely shutting in this well at this time may result in formation damage. We have tested the well recently and observed that it can produce at a reduced rate with minimal damage.

Your consideration of this request is most appreciated. Attached is a copy of the shut-in request. If I can provide any additional information, please call me 915/685-5913.

Sincerely,

Rick
