Tubb Oil and Gas Pool

Gentlemen:

It is noted from your gas/oil ratio test, Form C-116, that the Tubb zone in the above-referenced well is now producing and needs an allowable assigned. As indicated in my December 30th letter your C-104 was returned to you because the well was non-producing and did not need an allowable at that time. You were advised to resubmit it should the Tubb zone ever be placed on production.

As soon as the C-104 for the Tubb is received an allowable will be assigned.

Very truly yours,

OIL CONSERVATION DIVISION

Supervisor, District I
