

Proposed Development Plan for Surface Use

Amoco Production Company's Gillully "B" Federal #16 Unit M, Sec. 22,  
T-20-S, R-37-E

---

---

This plan is an attachment to "Application for Permit to Drill" and is a discussion of the possible effects the drilling of this well/wells might have on the environment. A copy will be posted on the derrick floor so that all contractors and sub-contractors will be aware of all items of this plan.

1. Existing roads including location of exit from main highway. (See attached map)  
Location is approximately 5 miles south of Monument, New Mexico.
- 
- 
- 
- 

2. Planned access roads. (Width, maximum grade, turnout, drainage design, location and size of culverts and surfacing material, where fences will be cut, and where gates or cattleguard will be used.) (See Exhibit B)

Roads will be 12 ft. wide X 6 in. thick, watered and compacted caliche.

Approximately 1500 ft. of new road to be constructed. Approximately  
8000 ft. of existing road will be repaired.

---

---

---

3. Location of existing wells. (See Exhibit B)  
(2-Mile radius for exploratory wells; 1-Mile radius for development wells)
