13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This is a request to maintain this well on temporary abandon status.
Attached is a copy of the pressure test chart.

This well is a direct offset to Conoco's Warren waterflood. We have been in contact with Conoco to propose a trade where they would acquire this well. Conoco in turn may have a valuable use for this well resulting in increased revenue to the BLM. Plugging this well now may result in a premature abandonment and a loss of future revenue. If our negotiations are successful with Conoco, we expect a time frame of less than one year.
