Re: Recompletion to Blinebry  
McDonald State A/c-2 #32-B  
Sec. 13, T22S, R36E

Gentlemen:

*read* ( In order to complete our records for the recompletion of the above-referenced well from the Drinkard to the Blinebry Oil & Gas Pool, please submit an acreage dedication plat, Form C-102, for the Blinebry pool outlining the 40 acres dedicated to this well. This plat does not have to be signed by the surveyor, but must be signed by Marathon.

*Will correct C-115* ( Also, since this recompletion work was done in December 1990 and you are just now filing your completion reports you have probably been reporting production for this well under the Drinkard zone. Therefore, if that is the case, you will need to amend your C-115 reports to correct this.

*PC-129* ( I am sure this well goes into a commingled battery and if you do not already have permission to commingle Blinebry production you will need to have your commingling order amended.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I
