Attention: Mr. William J. LeMay - Director

Dear Mr. LeMay:

Chevron U.S.A. Inc. respectfully requests administrative approval for a non-standard gas well location for the W. T. McComack No. 18.

Chevron U.S.A. is planning to recomplete the W. T. McComack No. 18 well from the Drinkard into the Tubb Oil and Gas Pool. Well No. 18 is located at 210' FNL and 2390' FEL in Section 32, T21S, R37E, Lea County, New Mexico. This makes the well a non-standard location per the Tubb Gas Pool regulations. The standard gas proration unit would consist of the NE/4 of Section 32, T21S, R37E, Lea County, New Mexico. This is the only well bore available for this recompletion and we can not justify a new well to acquire these reserves.

A copy of this administrative application is being provided to our offset operators via Certified Mail. Attached is a commercial map and a Form C-102 plat illustrating the proration unit acreage and well location. Also included is a copy of the letter sent to our offset operators.

December 8, 1994

If you have any questions, or if you require further information, please contact Lloyd Trautman at (915) 687-7152.

Sincerely,

L. V. Trautman
Sr. Petroleum Engineer
