RE: **Conoco, Inc.**, SEMU, Well #114, Wildcat (Strawn) pool, Sec 29, T20S, R38E,
810' FNL & 2130' FWL, Lea County, New Mexico

Dear Mr. Catanach,

Concerning the above referenced well, we are requesting permission to surface commingle this recompletion to the Strawn zone into the Conoco, Inc., SEMU "BMT" battery located in the NW/4 SW/4 of Section 20, T20S, R38E, NMPM, Lea County, New Mexico.

The SEMU "BMT" battery currently has a Commingling Order PLC-67 which allows commingling of the Warren-McKee (oil-63270), Warren-Tubb (oil-63280), Blinbry Oil & Gas (oil-06660), and the East Skaggs-Abo (oil-56630) pools (copy of order attached). The SEMU, Well #114 was drilled and completed as a water injection well for the SEMU McKee waterflood in 1981. In November 1993 it was temporarily abandoned in the McKee with a CIBP set above McKee @ 8850.

The gravity of the Strawn pool in this area is approximately 36.5, and is sweet crude. We do not believe the added Strawn production would adversely effect the gravity of the "BMT" battery crude. The anticipated commingled production will be measured prior to commingling for sales, through a three phase heater treater where the oil, water and gas will be separated. The gas will separately metered for sales. The oil will be measured with a positive displacement meter, and the water will be measured with a turbine meter.

Copies of this commingling request have been sent this date to the working interest owners (listing attached) as well as the royalty interest owners. I have enclosed copies of the area map, battery diagram and listing of the SEMU and Burger B-20 wells going into this facility. If you need any further information concerning this request, please contact me as listed below. Thank you.

Yours truly,

Lease:	Burger "B-20" Lease
Description:	SE/4 NW/4 of Section 20, Township 20 South, Range 38 East, NMPM,

All in Lea County, New Mexico.

Production shall be allocated to each lease by separately metering the production from each lease prior to commingling.

NOTE: This installation shall be installed and operated in accordance with the applicable provisions of Rule 309-B of the Division Rules and Regulations and the Division "Manual for the Installation and Operation of Commingling Facilities." It is the responsibility of the producer to notify the transporter of this commingling authority.

REMARKS: The commingled production shall be stored at the SEMU "BMT" battery located in the NW/4 SW/4 of Section 20, Township 20 South, Range 38 East, NMPM, Lea County, New Mexico.

FURTHER: The operator shall notify the Hobbs District Office of the Division upon implementation of the commingling process.
