RE: EXCEPTION TO RULE 402

Gentlemen:

As requested in your July 6th letter and for the reasons outlined therein, the wells listed below will be exempt from the shutin pressure-test requirement of Division Rule 402. This exemption is being made on a non-expiring basis pending workover or shutin of the wells.

BOOTLEG RIDGE MORROW GAS POOL

WBR Federal #1 Unit H, Sec. 13, T22S, R32E

~~Unit I, Sec. 14, T22S, R33E~~

NBR #2 Unit F, Sec. 18, T22S, R33E

Very truly yours,

OIL CONSERVATION DIVISION

RE: Annual Gas Well Shut-in Pressure Test, 1992  
Federal EBR 1 L 17 22S 33E  
NBR 2 F 18 22S 33E  
WBR Federal 1 H 13 22S 33E 32E

Gentlemen:

Pogo Producing Company will soon schedule Annual Gas Well Shut-in Pressure Tests for 1992. The three (3) referenced wells are marginal low pressure wells. Two (2) wells require gas compressors necessary to produce into Llano's gas gathering system and the other well will soon require a compressor. Each time the wells are shut-in it requires swabbing fluid to restart the wells producing. Gas production volumes decrease considerable after each shut-in period.

We request the subject wells be exempted from the annual shut-in test. Your consideration is certainly appreciated.

Sincerely,

POGO PRODUCING COMPANY

  
Richard L. Wright  
Division Operations Supervisor
