Dear Nelda:

In the process of trying to establish who is doing what and who has done what, apparently the enclosed C-104s should have been submitted after Jimmy Carlile, with Conoco, Inc., requested and received verbal approval to move the above referenced wells from the Weir Blinebry pool to the East Weir-Blinebry pool. It has come to my attention that the C-104s needed to be filed - I filed for permission to surface commingle production from the Weir-Blinebry and East Weir Blinebry and received Commingling Order PC-992. I have enclosed a copy of this permit.

Please let me know if you need any further documentation on these two wells. Thank you.

Yours truly,
