Water Shut-Off

Conversion to Injection

Dispose Water

(Note Report results of multiple completion on Well
Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operation (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Due to recent personnel changes in Central Resources, Inc.'s Denver office, operations were assumed from the Sidney, Nebraska district office. With notification via the "Notice of Incidents of Non compliance" we only became aware of the fact that said well was operated by Central Resources, Inc. To this end, we have had our contract pumper; Mr. Gary Standard, inspect the site to insure no problems. This district office has no well files or information on hand, inasmuch as the files are apparently in Houston, Texas. Therefore, until files arrive and can be analyzed for future potential, we must request the well be approved as temporarily abandoned. Central Resources, Inc. respectfully requests this approval until such time as we can properly determine a course of action.

TA 60 DAY
