RE: RECLASSIFICATION OF WELL
EUMONT POOL
New Mexico "H" State NCT-2 #31-L
Sec. 20, T20S, R37E

Gentlemen:

Due to the recently submitted scheduled gas/oil ratio test the above-referenced well will be reclassified from gas to oil effective July 1, 1991, and the gas allowable cancelled that date.

If for some reason you feel this test does not reflect the proper classification for this well, please submit another test for our consideration by May 7, 1991.

If the well is to be reclassified from gas to oil you will need to submit a revised C-102, acreage dedication plat, outlining the 40 acres to be dedicated to the oil well. Also, since this well shares a 320-acre gas proration unit with #26-C you will need to have this proration unit reduced by the deletion of this acreage.

Also, if the gas transporter changes due to reclassification, please submit Form C-104 so indicating.

Very truly yours,

OIL CONSERVATION DIVISION
