Re: Failure by Raptor Resources, Inc. to Give Proper Notice
Raptor's Jalmat Infill Program
Sections 8 and 9, T-22-S, R-36-E, Lea County, New Mexico

Dear Ms. Wrotenbery and Mr. Stogner:

Doyle Hartman is an offset Jalmat operator to Raptor Resources, Inc. (Raptor), with respect to the above-referenced Sections 8 and 9, T-22-S, R-36-E, Lea County, New Mexico, by virtue of the 160-acre Jalmat State "H" lease in the NE/4 of Section 17, T-22-S, R-36-E. In 1998, Doyle Hartman and James A. Davidson acquired the State "H" Lease from OXY USA, Inc., effective November 1, 1997, and recorded the lease of record in Lea County, New Mexico, on April 24, 1998. A copy of a Lea County ownership map, which reflects Hartman's ownership in that lease, is attached as Exhibit "A".

Please accept this letter as a general objection, on behalf of Doyle Hartman and James A. Davidson, to the Jalmat infill drilling and recompletion program which Raptor Resources is presently undertaking in Sections 8 and 9, T-22-S, R-36-E (and also to Raptor's dense infill drilling throughout the Jalmat Pool). See Exhibit "A". Hartman has previously set out objections to unjustified high-density Jalmat infill drilling and recompletion programs to Raptor by letter dated October 21, 1999. Copy attached as Exhibit "B". A more detailed explanation of Hartman's objections to high-density Jalmat infill drilling and recompletion programs is set out in Hartman's letter to Ms. Wrotenbery, director of the NMOCD, dated October 13, 1999, with respect to a package of administrative applications submitted by SDX Resources, Inc. (SDX). A copy of that letter is attached as Exhibit "C".
