Attn: A. W. Bohling

Gentlemen:

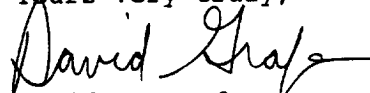

Attached is a copy of Clayton W. Williams' administrative application for NMOCD approval of a Non Standard Gas Well Location and Simultaneous dedication in the Jalmat Tansil Yates 7-Rivers (Pro Gas) Pool.

Clayton W. Williams, Jr., Inc. is planning to re-complete it's State "A" A/C 2 Well #70 in the Jalmat Tansil Yates 7-Rivers (Pro Gas) Pool. It is our desire to also simultaneously dedicate the existing 640 acre Jalmat Gas Proration Unit assigned to our State "A" A/C #2 Well Nos. 23 and 46 to all 3 wells. As a result, the location of the State "A" A/C 2, well No. 70 becomes Non Standard in that it is less than 1650' from the Section Line. The location of the well No. 70 is 1295' FSL and 1295' FEL of Section 8, T-22-S, R-36-E, Lea County, New Mexico.

As an offset operator, if you do not have an objection to the attached application, please sign the enclosed waivers and mail the original and two copies to the NMOCD in Santa Fe and one copy to the NMOCD in Hobbs, New Mexico. We also request that one copy be returned to CWWJ, Inc. in Midland, Texas. We have enclosed addressed, stamped envelopes for your convenience.

If you have any questions, please contact me at (915) 688-3239. Your prompt consideration will be appreciated.

Yours very truly,

  
David G. Grafe  
Petroleum Engineer
