Gentlemen:

We have received a gas/oil ratio test for allowable reinstatement on the above-referenced wells. However, before we can reinstate your allowable, you will need to file Form C-104 designating the correct transporter. Our records show Shell Pipeline for well #2 and Koch Oil Company as the transporter for well #3. These wells share the same proration unit so the oil transporter should be the same.

As soon as a C-104 is filed indicating the correct transporter your allowable will be reinstated.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I
