17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Purpose: ATTEMPT COMPLETION IN THE WANTZ GRANITE WASH

On December 10, 1985, this recently drilled well was cleaned out to PBTD 7437'. A GR-CBL-CCL log was run from 7432' - 1200' showing good cement bond over this entire interval. On December 12, the Wantz Granite Wash was perforated at 7351, 54, 60, 76, 85, 88, 96, 7401, and 05 with 2 JSPF (18 holes). This zone was then acidized with 2000 gallons 15% NEFE acid. This zone was then swab tested for 3 days.

On December 17, it was fraced with 30,000 gallons Maxi-0-74 (kerosene base) carrying 30,000# 20/40 mesh sand. The well is now being tested.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
