RE: Annual Gas Well Shut-in Pressure Test, 1992
Federal EBR 1 L 17 22S 33E
NBR 2 F 18 22S 33E
WBR Federal 1 H 13 22S 33E 32E

Gentlemen:

Pogo Producing Company will soon schedule Annual Gas Well Shut-in Pressure Tests for 1992. The three (3) referenced wells are marginal low pressure wells. Two (2) wells require gas compressors necessary to produce into Llano's gas gathering system and the other well will soon require a compressor. Each time the wells are shut-in it requires swabbing fluid to restart the wells producing. Gas production volumes decrease considerable after each shut-in period.

We request the subject wells be exempted from the annual shut-in test. Your consideration is certainly appreciated.

Sincerely,

POGO PRODUCING COMPANY

Richard L. Wright
Division Operations Supervisor
