Re: Unorthodox Location Application
Oryx Energy Company
Ojo Chiso Federal No. 3
Antelope Ridge - Morrow Gas
M, 990' FSL & 990' FWL
Section 26, T-22-S, R-34-E
Lea County, New Mexico

Dear Mr. Stogner:

Enclosed is BLM Sundry Notice Form 3160-5 and OCD Form C-102 well location and acreage dedication plat to amend previously submitted application for Permit to Drill to add the Antelope Ridge-Morrow Gas zone and test for possible production.

This location is 990' to the nearest end boundary. Statewide Rule 104 states that distance to end boundary should be no closer than 1980'. The S-1/2 of Section 26, (320 acres) has been assigned to this well location. This location was picked due to geological reasons.

Attached is a list of all offset operators and their addresses who have been notified by certified mail. Return receipts will be forward to you as soon as they are received in our office.

Oryx Energy Co. requests approval for this unorthodox location. Should you require additional information, please contact me at (915) 688-0377.

Yours truly,

ORYX ENERGY COMPANY
