Re: Warren Unit #103-H Sec. 26, T20S, R38E
Warren Unit #105-H Sec. 27, T20S, R38E

Gentlemen:

We have received from the BLM approved APD's for the above-referenced wells to be completed as downhole commingled Blinebry and Tubb injection wells in the newly created Warren Blinebry/Tubb Oil & Gas Pool.

Because of some problems between the BLM and Conoco relating to participating areas, etc., it has become necessary to delay the effective date of order R-9467 which deleted acreage from the Blinebry Oil & Gas Pool and the Warren Tubb Pool and created a new pool for waterflooding which allowed downhole commingling of Blinebry and Tubb production. Based on this information we will be unable to authorize the completion of these wells as downhole commingled until the order is in full force.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
