13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Pogo Producing Company respectfully request that the APD for the above captioned well be amended so that we can eliminate the 8-5/8" intermediate string of casing. We propose that surface hole size be changed to 12-1/4" 800' with 8-5/8" 24# J-55 ST&C casing cemented to surface. We will then drill a 7-7/8" hole to a total depth of 9000' using an aerated brine system where we will log and run 5-1/2" casing. The 5-1/2" casing will be cemented to surface. All other details of the APD will remain the same. Start up is expected by 5/24/95.
