13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

An APD to drill this well was approved by the Carlsbad BLM 9/22/93. This well was permitted to a TD of 6700'.

It is proposed to change the approved drilling plan as follows:

1. Drill to a new TD of 6900'
2. Set the 7" production casing at the new TD of 6900'.

None of the rest of the approved drilling plan is anticipated to be changed.

The well is expected to spud on 12/28/93 and verbal approval for this change in drilling plans was obtained from Adam Salamah.
