(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

It is proposed to downhole commingle the Blinebry-Tubb and Drinkard production in this well by the following procedure:
1. POOH with the dual producing equipment (rods, tubing, & packer).
2. RIH with a single 2-3/8" production tubing string, rods, and pump.
3. Set pump at 6836'.
4. Put back on production.

Approval to downhole commingle was granted by the NMOC in Order No. R-10335 and by the Roswell BLM Office in an April 6, 1995 letter under the signature of Tony L. Ferguson.

14. I hereby certify that the foregoing is true and correct
