13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

An APD to drill this well was approved 9/7/95 at a 2160' FSL & 660' FWL location in Sec. 27, T-20S, R-38E. When construction of the drilling pad was begun a high pressure gas line was discovered that had not been identified during the staking of that location.

Therefore, the well location was moved 315' to the west to avoid this pipeline and was restaked at 2160' FSL and 345' FWL. This is still within the area surveyed and cleared for this APD and should require only this notice of change of drilling location.

It is requested to change the legal location in the APD for this well to:

        2160' FSL & 345' FWL, Sec. 27, T-20S, R-38E

Copies of the new survey plat for this new location are also enclosed.

14. I hereby certify that the foregoing is true and correct
