ADMINISTRATIVE ORDER DHC-1375

D.K. Boyd Oil and Gas Company, Inc.
P.O. Box 11351
Midland, Texas 79702-1351

Attention: Mr. Steve Burke

*Littman '8' Federal Well No. 1
Unit N, Section 8, Township 21 South, Range 38 East, NMPM,
Lea County, New Mexico.
Wildcat Seven Rivers (No Pool Code Assigned) and
Littman San Andres (39330) Pools*

Dear Mr. Burke:

Reference is made to your recent application for an exception to Rule 303.A. of the Division Rules and Regulations to permit the above described well to commingle production from the subject pools in the wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303.C., and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion and required separation, or permitted surface commingling of the two zones is hereby placed in abeyance.

In accordance with the provisions of Rule 303.C., the daily allowable producing rates from the subject well are hereby established as follows:

Oil 80 B/D	Gas 160 Mcf/D	Water 160 B/D
------------	---------------	---------------

In accordance with the provisions of Rule 303.C., the supervisor of the Hobbs District Office of the Oil Conservation Division shall determine the proper allocation of production from the subject well following its completion.

FURTHER: The operator shall notify the Hobbs District Office of the Division upon implementation of the commingling process.

Pursuant to Rule 303.H., the commingling authority granted by the order may be rescinded by the Division Director if, in his opinion, conservation is not being best served by such commingling.
