

# LOGGING PROGRAM

Logging program included: GR-CND (Z) & DIFL-SP

Copy of GR-CND log included in attachments

## FRESH WATER ANALYSIS

Fresh water well within 1 mile radius;        Yes XX No

Chemical analysis from well(s) located: Sec 14, T-22-S, R-31-E

Date sampled: 5/21/78

Chemical analysis from well(s) located:

Date sampled:

## HYDROLOGY

Various engineering data and area well logs reveal no evidence that there might exist hydrologic connection between the intended injection zone (Bell Canyon) at 5100' and possible fresh water at above 650' (Santa Rosa)

## COMMERCIAL INTENTION

Initially, only water from Pogo Operated wells will be disposed into the system/well. Eventually, Pogo could take water from other leases in the area operated by someone else, but in which Pogo has a working interest. Only piped water will be taken into this system.
