**RE: Application for Non-standard Proration Unit
State P.C. #1 (NSL 3733A)
Section 32, T-20-S, R-37-E
API # 30-025-33672
Lea County, NM**

Dear Mr. Stogner,

This well was originally drilled to the Ellenburger by Shell Western E and P. When I purchased the well, they had plugged back to the Tubb Formation. I tested the Tubb until it was determined to be uneconomical. I have since plugged back to the Blinbry Formation. This interval tested 8 BOPD, 35 MCF, and 25 BWPD.

Shell Western E and P assigned me a Wellbore Assignment consisting of only 40 Acres. The Oil Center Blinbry requires 80 Acres. I respectfully request your approval for a Non-Standard Proration Unit for this single well location.

The attached list, of offset Operators, have been notified by certified mail of this request. If there are any questions concerning this matter please call me at 505-390-0366.

Best Regards,

Ralph C. Bruton

A hand-drawn map of the Doyle Hartman area in Burgundy, O.E.G. The map shows streets including Doyle Hartman, Burgundy, Lindy's Liv. Tr., Turner St., Meridian Shell-St., and Store Shell-St. Various locations are marked with symbols like suns, stars, and dots, some with numbers (e.g., 133, 157, 175, 176, 152, 155, 177) and labels like 'wi' or 'od'. A large '32' is written in the center. A diagonal line runs from the top right towards the bottom center.
