Drinkard (Oil - 19190) and  
Wantz-Abo (Oil - 62700) Pools*

Dear Ms. Anderson:

Reference is made to your recent application for an amendment to Division Order No. DHC-2068 dated August 11, 1998, which authorized the downhole commingling of Tubb Oil & Gas, Drinkard and Wantz-Abo Pool production within the wellbore, to add the Blinebry Oil & Gas Pool as the fourth commingled zone in the well.

It appearing that the subject well qualifies for approval for such amendment pursuant to the provisions of Rule 303.C., and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion and required separation of the zones is hereby placed in abeyance.

The maximum amount of gas which may be produced daily from the well shall be determined by Division Rules or by the gas allowable for each respective prorated gas pool as printed in the Division's Southeast Gas Proration Schedule.

Assignment of allowable to the well and allocation of production from the well shall be on the following basis:

|                         |          |         |
|-------------------------|----------|---------|
| Blinebry Oil & Gas Pool | Oil-0%   | Gas-34% |
| Tubb Oil & Gas Pool     | Oil-0%   | Gas-35% |
| Drinkard Pool           | Oil-0%   | Gas-15% |
| Wantz-Abo Pool          | Oil-100% | Gas-16% |

REMARKS: The operator shall notify the Hobbs District Office of the Division upon implementation of the commingling process.

Pursuant to Rule 303.C.(2), the commingling authority granted herein may be rescinded by the Division Director if conservation is not being best served by such commingling.

Approved at Santa Fe, New Mexico on this 11th day of July, 2000.
