

REQUEST TO AMEND EXISTING ALLOCATION FORMULA

Apache Corporation requests an amendment to the existing allocation formula for Owen 'B' No. 6 due to the addition of the Blinebry Oil & Gas Pool (Pro Gas) and decline in the oil production

ORIGINAL ALLOCATION FORMULA:

The original allocation formula was based on production tests performed when the well was first completed in 5/98 and as additional zones (Drinkard & Tubb) were added in 8/98

Wantz Abo - Production Test (5/23/98)	19 BO x 173 MCF
Drinkard - Production Test (8/16/98)	1 BO x 170 MCF
Tubb - Production Test (8/31/98)	0 BO x 422 MCF
Combined Production Test - 9/1/98	18 BO x 765 MCF

Allocation Formula for Owen 'B' No. 6 Downhole Commingle as of 9/1/98:

Wantz Abo	94% Oil	16% Gas
Drinkard	6% Oil	15% Gas
Tubb	0% Oil	55% Gas

As of 1/1/99 production has declined to 6 BO x 325 MCF

Prior to Adding Blinebry in 11/99 - Production Test = 6 BO x 315 MCF

Post Blinebry Addition - Production Test 1/1/00 = 6 BO x 477 MCF

REQUESTED ALLOCATION FORMULA

Abo	100% Oil	16% Gas
Drinkard	0% Oil	15% Gas
Tubb	0% Oil	35% Gas
Blinebry	0% Oil	34% Gas
