☐ Dispose Water

Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Conoco, Inc. is has made application to test the D-K Abo pool (15200), the Warren Tubb East (87085) and the Blinebry Oil & Gas -Pro Gas pool in the Warren Unit, Well #148. This production will be going to the Warenn Unit (East) battery facility and will be tested separately, as a 30 day test will be required for each pool. We will be filing to trimingle the above stated pools. Commingling Order PC -994 currently permits production from the Warren-Blinebry Tubb Oil & Gas and the Warren Seven Rivers pools. In the event the three pools are productive, the" trimingling" DHC permit will cover/allocate the pools going into the Warren Unit (East) battery.
