NEW MEXICO STATE LAND OFFICE OFFICE OF THE STATE GEOLOGIST SANTA FE, NEW MEXICO

MISCELLANEOUS REPORTS ON WELLS

Submit this report in duplicate to the State Geologist or proper Oil and Gas Inspector within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of water shut-off, result of abandonment of well, and other important operations, even though the work was witnessed by the State Geologist or Oil and Gas Inspector. Reports on minor operations need not be signed and sworn to before a notary public, but such operations should be witnessed by an Oil and Gas Inspector if possible.

Following is a report on the work done and the results obtained under the heading noted above at the Texas Company Following is a report on the work done and the results obtained under the heading noted above at the The Texas Company Following is a report on the work done and the results obtained under the heading noted above at the The Texas Company Following is a report on the work done and the results obtained under the heading noted above at the Texas Company State A Well No. 4 will be in the Year of Sec. 2 T. 21 South R. R. 33 East of N. M. P. M., Lea Oil Field. Lea County.
