Mr. J. D. Hunter
State Oil & Gas Inspector
Carlsbad, New Mexico

Dear Mr. Hunter:

This is in reference to the State
"A" Well No. 4, in Lot 7, Sec. 2, T. 21 S.,
R. 33 E., of the Texas Company.

There are two forms SG-101 in connection with this well on file here which differ slightly. One form is dated July 25, 1933 and the other is dated November 15, 1933. One form states the well is 1980 feet south of the north line, whereas the other form states the well is 1950 feet south of the north line. There are a few other slight variations which you will no doubt see when you check up on this matter.

Will you be kind enough to advise me why there are two of these forms on the same well and why there are any differences?

Very truly yours,

Lola Belle Franks
