In accordance with R-111 and w/instructions from Oil Conservation Commission, the undersigned intends to:

- 1. Set surface pipe into Red Beds and circulate cement to surface.
- 2. Comply with all provisions set forth with the following exception:

A waiver of Section III - Area B - Par. 3 (b) (1) has been obtained from the State Conservation Commissioner subject to the following provision - we will drill a 7-7/8" hole from surface casing seat to total depth using a super saturated sodium chloride drilling fluid. In case oil or gas is encountered in commercial quantities upon running production string we will use two D.V. (Multi-Stage) Tools, one at 3250' and one at 1850', and use sufficient amount coment to seal said string from bottom to top. If oil or gas is not obtained in such quantities we will coment test hole from T.D. back to surface.

A Stanley
