

NEW MEXICO OIL CONSERVATION COMMISSION

SANTA FE, NEW MEXICO

MISCELLANEOUS NOTICES

RECEIVED
OCT 23 1948
HOBBS OFFICE

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the

Emperor Oil Company State Well No. 1 in SW 1/4
Company or Operator Lease
of Sec. 14, T. 21S, R. 34E, N. M. P. M., Wildest Field.
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Hole has been drilled with rotary tools to depth of 3715' and Base of Salt has been found to be low structurally. We therefore consider it inadvisable to drill this hole deeper and propose to abandon it at the present depth. A string of 10-3/4" casing has been cemented at depth of 187' with 75 sacks.

We propose to set a cement plug in the Rustler Anhydrite at a depth of approximately 2000'. This plug will be 20 sacks and should, theoretically, fill approximately 54 feet of hole. We then propose to set a cement plug of 20 sacks at the bottom of the 10-3/4" casing.

A regulation marker will be cemented at the surface of the hole and the surrounding surface will be left in as nearly as possible the condition in which it was found.

OCT 22 - 1948
