Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

The above well has been shut-in since 1975. It is proposed to enter the well, cleanout to T.D. and test the individual zones over the open hole interval where possible using a straddle packer. If justifiable 4 1/2" casing will then be run from surface to T.D. and perforated over producing interval.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
