

NEW MEXICO OIL CONSERVATION COMMISSION

SANTA FE, NEW MEXICO

MISCELLANEOUS NOTICES

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the _____

Cities Service Oil Company State "V" Well No. 1 in NE 1/4
Company or Operator Lease
of Sec. 16, T. 21 - S, R. 34 E, N. M. P. M., West Wilson Field.
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Well was drilled to a total depth of 3991' in lime. 9-5/8" casing was set at 245.26 and cemented with 200 sacks. 7" casing was set at 3732' and cemented 400 sacks. Well was swabbed 12 hours and recovered 142 barrels of water and approximately 2 barrels of oil. Unable to lower fluid below 1100' from bottom. Well was making 100% black sulphur water. It is proposed to load the hole with heavy mud, cement the bottom of the 7" casing with 60 sacks; shoot off 7" casing beginning at the freeze point; plug the open hole with 25 sacks of cement where casing is shot off; and then cement 9-5/8" casing to the surface with an estimated 50 sacks of cement, leaving a 4" - 4' marker at the location. The marker to be capped with a 4" bull plug.
