Detailed account of work done, nature and quantity of materials used and results obtained.

State V #2 was drilled to 3914' in sand. Since the well was non-commercial, it was plugged and abandoned. The hole was loaded with approximately 225 barrels of 9.4 mud. Spotted 25 sacks cement at 3914' extending upward into the 5 1/2" casing. The 5 1/2" casing was shot off at approximately 2200' and recovered 2213' of 5 1/2" casing. Spotted 25 sacks of cement at 2220' and 25 sacks at 1365' or the base of the 8 5/8" casing. Spotted 15 sacks of cement in the top of 8 5/8" casing. Marker was installed and location was cleared of all debris, cellar filled and location and tank site were cleaned up and leveled. Plugging operations were supervised by Mr. B. V. Dodson, 121 South Burk Street, Hobbs, New Mexico (Lea County Casing Pullers) and Mr. W. M. Dickey, Production Foreman, Box 97, Hobbs, New Mexico
