

NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

NOTICE OF INTENTION TO DRILL

Notice must be given to the Oil Conservation Commission or its proper agent and approval obtained before drilling begins. If changes in the proposed plan are considered advisable, a copy of this notice showing such changes will be returned to the sender. Submit this notice in triplicate. One copy will be returned following approval. See additional instructions in Rules and Regulations of the Commission.

WILSON OIL COMPANY

Santa Fe, New Mexico

June 2, 1948

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico,

Gentlemen:

You are hereby notified that it is our intention to commence the drilling of a well to be known as.....

Wilson Oil Company

COMPANY OR OPERATOR

State No. E-229

LEASE

Well No. 28 in SW 1/4

of Sec. 23, T. 21, R. 34, N. M. P. M., West Eunice Field, Lea County.

The well is 330 feet (N.) of the South line and 990 feet (E.) of the West line of Sec. 23-21-34.

(Give location from section or other legal subdivision lines. Cross out wrong directions.)

If state land the oil and gas lease is No. E-229 Assignment No. None

If patented land the owner is.....

Address

If government land the permittee is.....

Address

The lessee is.....

Address

We propose to drill well with drilling equipment as follows: Our own

cable tools

The status of a bond for this well in conformance with Rule 39 of the General Rules and Regulations of the Commission is as follows: \$10,000 in full force and effect

We propose to use the following strings of casing and to land or cement them as indicated:

SIZE OF HOLE	SIZE OF CASING	WEIGHT PER FOOT	NEW OR SECOND HAND	DEPTH	LANDED OR CEMENTED	SACKS CEMENT
22"	16"	70 lb	Secondhand	210	Cemented	200
15.5"	13"	52 lb	"	760	Landed	10 aquagel
12.5"	10"	36 lb	"	1250	"	10 "
9.5	to about	2100'	and then hole reduced to 8.5"			
8.5	7"	20 lb	New	3700	Cemented	350

If changes in the above plan become advisable we will notify you before cementing or landing casing. We estimate that the first productive oil or gas sand should occur at a depth of about 2775 feet.

Additional information:

We figure that by reducing hole where indicated, cementing with 350 sack should bring cement up to within 1400' from surface thus cementing off the main salt measures with 350' to spare JUN 4 1948

Approved

Except as follows:

Sincerely yours,

WILSON OIL COMPANY
