SAMPLE LOG

I.P. - 276 bbl/s

Formation	Bottom	Formation	Bottom
No samples	0 - 795	Gray and white lime	3455
Gray and brown sandy shale	805	Brown lime, some white lime, white anhydrite	3475
Brown sand	835	Brown dolomite, trace white lime	3498
Brown shale and sand	845	Brown dolomite, some white anhydrite, trace gray dolomite	3530
Red shale	855	Gray dolomite, trace white lime	3550
Brown sandy shale	898	Brown and gray dolomite	3560
Red shale	960	White, gray and brown lime	3565
No samples	1040	Brown and gray dolomite	3580
Red and gray sand	1070	Brown dolomite, trace gray dolomite and white anhydrite	3604
Red sandy shale	1085	Brown dolomite, trace gray dolomite	3608
Red shale	1095	No samples	3612
Fine gray sand	1105	3612 equals	3618
Red shale	1150	White dolomite	3641
Red and gray sand	1170	Tan sand and sandy lime - Oil stained	3655
Red shale	1245	White lime and green bentonite	3669
Red shale	1265	White lime and bentonite	3675
Red and gray sand	1305	Buff and gray dolomite and bentonite	3694
Red shale	1325	Buff lime, little bentonite	3715
Red and gray sand	1345	Porous brown and white lime	3726
Red shale	1355	Buff and gray and white lime, some bentonite	3745
Red sandy shale	1405	White and gray lime	3756
Red shale	1665	White and brown lime, bentonite	3765
Red shale and anhydrite	1670	Gray and white lime	3772
No samples	1685	Buff and white dolomite, trace bentonite	3788
Red shale, white anhydrite, trace green shale	1695	Porous buff and white dolomite	3790
Gray dolomite, trace white anhydrite and red shale	1725		
No samples	3300		
White salt	3315		
Gray salt	3330		
White salt, some white anhydrite	3350		
Gray salt and white anhydrite	3363		
White anhydrite	3380		
Gray and brown dolomite and white anhydrite	3390		
Gray lime, some white anhydrite	3400		
Brown lime, some green and gray dolomite	3415		
Brown lime, some gray and white anhydrite	3425		
Brown lime and gray anhydrite	3432		
Gray lime, gray and white anhydrite, trace red shale	3445		

I. P. - 500 bbls. daily 2% H₂O.
 Plugged back to 3780' for water shutoff. Produced 120 bbls. daily on pump. Was then shot with 200 qts. and cleaned out. Production fell to 20 bbls. daily. Well was plugged and abandoned.
