New Mexico Oil Conservation Commission
Box 2045
Hobbs, New Mexico

Dear Sir:

Your letter November 9 with reference to plugging Ralph A. Shugart #2 in Sec. 1-21S-33E, inasmuch as this well is protected by surface casing and 7" casing, cement circulated to the top of the ground, we decided that we would leave it open for a while in order that we might desire to deepen it at some future time. The well is not hurting anything, not over-flowing and is protected.

If this is not agreeable we could fill it with mud. Will appreciate hearing from you.

Yours very truly,

J. H. ELDER
