

# THE TEXAS COMPANY

Fort Worth, Texas,  
May 18, 1932.

41478 - State A-3 Well,  
Lea County, New Mex.

Mr. W. F. Batson,  
Wink, Texas.

Dear Sir:

We are handing you herewith, in triplicate, revised "Notice of Intention to Drill" our State A-3 well in the Lynch pool of Lea County, New Mexico.

It was necessary to revise this form for the reason that the form filed by you calls for the well to be drilled throughout with cable tools. We have let contract for the drilling of this well to the depth of approximately 1700' with rotary tools and from 1700' to completion with cable tools. This revises the casing program for the well.

These three copies should be delivered by you to the State Geologist or Oil and Gas Inspector, who I presume will be Mr. Stancliff at Hobbs in this case, and he should sign and return one to you, to be returned to this office for our files. He will retain the original and one copy for his files. Please handle this promptly.

Very truly yours,

CBW-H  
TTF-AEW
