Re: Reclassification of Well -- Eumont Y-SR-Qn Pool  
State H #1Y-P  
Sec. 13, T21S, R35E

Gentlemen:

Due to the recently submitted gas/oil ratio test for the above-referenced well, it will be reclassified to a gas well in the Eumont Pool effective September 1, 1989, and the oil allowable cancelled that date.

If for some reason you feel this test does not reflect the proper classification of this well, please submit another test for our consideration by July 31, 1989.

According to the special rules for the Eumont Pool this well location is unorthodox for a gas well and will require approval from Santa Fe as will a non-standard proration unit.

If the well is to be reclassified, please furnish this office with an acreage dedication plat outlining the acreage to be dedicated to the gas well classification along with a copy of your application for NSL and NSP.

If the transporters change as a result of reclassification, please submit Form C-104 so indicating and advise this office if the gas is separately metered.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I
