*acidize and/or hydrafrac
Artesia, New Mexico
(Place)

July 12, 1963
(Date)

Following is a Notice of Intention to do certain work as described below at the.

NW NW 18 21 35
 (40-acre Subdivision) 1/4 of Sec. T. R. NMPM, Wilson Pool
 Leas County.

The well was drilled to a total depth of 3859 with the base of the liner at 3850'. The liner was perforated from 3837-40 in January of 1959. Permission is requested to plug the Seven Rivers formation back into the liner and test the present perforated zone, and, if necessary, to perforate additional Yates sand zones and acidize with not more than 2,000 gallons of acid and/or hydrofrac with 25,000# of sand. This remedial work will be attempted in an effort to reduce the water-oil ratio and to increase the ultimate production of oil.
