Gentlemen:

Please refer to your letter dated November 10, 1960 concerning your request for a standard gas proration unit for your State "F" Well No. 1 in the Eumont Gas Pool.

In our opinion the acreage you propose to dedicate to your State "F" Well No. 1 conforms to the provisions of Rule 5 (a) of Order No. R-1670 and will certainly be considered a standard proration unit in the Eumont Gas Pool. However, your well location of 660 feet from the outer boundary of the unit does not conform to Rule 2. Therefore, it will be necessary that you apply to the Commission for a non-standard location for your State "F" Well No. 1 in order to dedicate 640 acres to the well. This opinion was confirmed by the Santa Fe office and the matter will be set for Hearing upon receipt of your application.

Yours very truly,

OIL CONSERVATION COMMISSION

Attention: Mr. J. R. Turner

Dear Sir:

Reference is made to your letter dated November 10, 1960 concerning your request for a standard gas production unit for your State "F" Well No. 1 in the Hobbs Gas Field.

In our opinion the acreage you propose to dedicate to your State "F" Well No. 1 conforms to the provisions of Rule 5 (a) of Order No. R-1670 and will certainly be considered a standard production unit in the Hobbs Gas Field. However, your well location of 660 feet from the outer boundary of the unit does not conform to Rule 5. Therefore, it will be necessary for you to apply to the Commission for a non-standard location for your State "F" Well No. 1 in order to dedicate 640 acres to the well. This location will be confirmed by the State Reclamation Office and the matter will be referred to the Commission upon receipt of your application.

Very truly,

OIL CONSERVATION COMMISSION
