Eunice, New Mexico

Gentlemen:

Your recently submitted gas-oil ratio tests for wells in the Eunont Gas Pool indicated that your State F-1 Well No. 4 located in Unit A of Section 1, T-21-S, R-36-E is producing with a ratio in excess of 100,000:1. Therefore, under the provisions of Commission Order No. R-1670 this well is reclassified as a gas well in the Eunont Gas Pool. Said reclassification will be effective September 1, 1962.

Please shut in this well on September 1 and leave the well shut in until you have complied with the provisions of Order No. R-1670 which pertain to the Eunont Gas Pool.

Yours very truly,

OIL CONSERVATION COMMISSION
