FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Authority is requested to produce well No. 5 on the Bell Ramsay lease into Tank Battery #2 instead of producing it into Tank Battery #1.

Wells #1, 2, 3, 4 and 5 are now being produced into Tank Battery #1, and wells No. 6, 7, 8, 9 and 10 into Tank Battery No. 2. (Wells No. 1 and No. 8 are shut in at the present time account excessive GOR)

Difficulty is being experienced in flowing well No. 5. Since Tank Battery No. 2 is lower elevation than Tank Battery No. 1 it is desired to determine the feasibility of producing well No. 5 into Tank Battery No. 2 rather than make mechanical changes.

The Gulf Refining Company run the oil from both of these tank batteries.
