MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

anta Fe, New Mexico. entilemen: collowing is a report on the work done and the results obtained under the heading noted above at the company or Operator Company or Operator Company or Operator of Sec. 4 T. 21s
The hele was washed down, the casing tested with 1200 Pressure applied for 30 Min., both tests were Okeh and after approval of Mr. Vesely State Oil & Gas Inspection, preparative made to drill ahead.
