Dr. E. H. Wells
State Geologist
Santa Fe, New Mexico

Dear Dr. Wells:

This is in regard to the Gypsy Orcutt Well No. 1
in the NW $\frac{1}{4}$ of Sec. 5, T. 21 S., R. 36 E.

I approved the bradenhead gas program and the
small amount of cement used in setting their 5 $\frac{1}{2}$ " casing
with the understanding that if any protests are received
from the operators of North Eunice, additional cement will
have to be run.

Personally, I believe this program submitted by
Gypsy will work out all right, however, I wanted to "jack"
the boys up a little so they will not be setting a pipe
with three or four sacks in the future.

Very truly yours,

FJV:t

State Oil & Gas Inspector.
