OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico

Gentlemen:

Following is a notice of intention to do certain work as described below at the _____
Gulf Oil Corporation **Orcutt "B"** Well No. **1** in **Center Lot 7**
 Company or Operator
 of Sec. **5**, T. **21S**, R. **36E**, N. M. P. M., **Eunice** Field.
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

This well was completed April 29, 1936 at a total depth of 3865' in the Grayburg formation as an oil well. It was temporarily abandoned in August, 1949 due to the fact that the well ceased to produce oil. The well has remained in that status to date.

We propose to run a radio activity log, set a Baker cement retainer at 3735', and plug off the exposed formation below with 50 sacks of cement. We then propose to Jet perforate with 2 holes per foot the Knight and Penrose formations over intervals determined from the log, in an effort to develop commercial gas production.

The 80 acres designated for this well are Lots 7 and 8, Section 5, 21S, 36E.

Approved _____ JUL 18 1951 _____, 19_____
 except at follows:
