December 2nd, 1935.

Devonian Oil Company,
Box 1379,
Tulsa, Oklahoma.

Attention Mr. A. M. Leonard, Vice President.

Gentlemen:

This letter is in reference to Form Sg101 of the Oil Conservation Commission for the Devonian Heasley-State Well No. 1 in NW $\frac{1}{4}$ of Section 5, Township 21 South, Range 36 East, Eunice field. This form is dated October 4th, 1935 and has been approved by Mr. F. J. Vesely, State Oil and Gas Inspector.

As you undoubtedly know Section 5-T. 21S-R. 36E. is an irregular section, containing approximately 960 acres. The description of the location as given on Form Sg 101, namely 1965 feet S. of North line and 1980 Feet E. of West line of the section, locates this well on your lease No. E-1614, but according to the system of designation for these irregular tracts, the well would be located in Block 6, instead of the NW $\frac{1}{4}$ of the section.

Please advise us if we are correct in this interpretation, in which event a correction should be made in your copy of Form Sg 101. A similar correction should be made on the Commission's copies of this form.

Very truly yours,

OIL CONSERVATION COMMISSION

By _____
State Geologist
