Dear Mr. Macey:

RE: PROPOSED DC ORDER NO. 250

I have examined the application for dual completion dated 10/26 for
Gulf Oil Corp. Orcutt, "C" #8 6-21-36, , and my
Operator Lease S.T.R.

recommendations are as follows:

I oppose this type of dual completion within same vertical interval-
this completion is particular would appear to be producing associated
gas from a portion of the "dry gas" interval- In view of past approvals ,
this is probably OK, but I might suggest that semi-annual tests could be
required here in order to protect oil-CMR

Same as above- RFM

Yours very truly,
