Mr. R. F. Montgomery, Proration Manager
Oil Conservation Commission
P. O. Box 2045
Hobbs, New Mexico

Dear Sir:

Your letter dated February 4, 1959 advised that the Gulf's Mollie Campbell No. 3-M, Section 7-21S-36E, Eumont Pool, would be removed from the March proration schedule and classified as a gas well.

Through an oversight, the lease pumper did not receive notice that the well was not assigned an allowable for March, 1959. This error was revealed in checking the April schedule, and the well was shut-in April 2, 1959. The well produced 93 barrels of oil in the month of March.

Yours very truly,

J. M. RUSSELL
Area Production
Superintendent
